

FRONT END DEVELOPMENT FRAMEWORKS AND UI ENGINEERING (25CS1201E)
2025-26, Term-III
Project Problem Statement Submission Form

Sec No- 7	Team No- 52	Project Title- Telemedicine Video Consultation UI
Team Lead Roll Number	2520030484	
Team Lead Name	Talluri Hima Bindu Sree	
Team Member Roll Number	2520030541	
Team Member Name	Musunuri Poojitha	

1. Abstract

This project aims to develop an advanced web-based telemedicine platform that enables efficient and intelligent interaction between patients and doctors through a digital consultation system. The application allows patients to input symptoms before consultation, where an integrated smart triage system analyzes severity levels and prioritizes cases accordingly. Based on the symptoms, the system can also assist in routing patients to appropriate specialists.

The platform provides a mock video consultation interface enhanced with real-time chat, consultation timers, and doctor note-taking capabilities. During the consultation, a clinical decision support system assists doctors by suggesting possible conditions, highlighting critical symptoms, and recommending further actions. The prescription module enables doctors to generate structured prescriptions with medicine suggestions, dosage templates, and downloadable PDF reports.

Additionally, the system maintains a comprehensive patient health record, including consultation history, uploaded medical reports, and a timeline view of treatments. Features such as appointment scheduling, emergency escalation, smart notifications, and follow-up recommendations ensure continuous and effective patient care. A monitoring and analytics dashboard provides insights into patient health trends and doctor performance.

The system is built using modern web technologies such as React.js for the frontend and Node.js with Express for backend services, ensuring a scalable and responsive design. Overall, this project demonstrates the implementation of a real-world healthcare solution that integrates consultation, decision support, and patient management into a unified intelligent platform.

2. Module Mapping

(Provide details of how modules are divided among team members.)

Module Name	Assigned Roll Number(s)	Signature
Authentication System (Login/Register)	2520030484	Himabindu
Appointment & Scheduling System	2520030541	Poojitha
Intelligent Pre-Consultation (Symptom + Triage)	2520030484	Himabindu
Smart Consultation Interface (Video + Chat)	2520030484	Himabindu

Clinical Decision Support System	2520030484	Himabindu
Prescription Generator (PDF + Suggestions)	2520030484	Himabindu
Patient Health Timeline & Records	2520030541	Poojitha
Emergency & Priority Queue System	2520030541	Poojitha
Notifications & Follow-up System	2520030541	Poojitha
Admin Dashboard & Analytics Analytics	2520030541	Poojitha

3. Module Details

2520030541 responsibilities:

- Develops the Authentication System (user registration, login, role-based access)
- Implements the Appointment Scheduling Module (booking, availability, rescheduling)
- Designs the Pre-Consultation System including symptom input and smart triage
- Builds the Patient Health Records & Timeline (history, reports, consultation data)
- Integrates the Notification & Follow-up System (alerts, reminders, updates)

2520030484 responsibilities:

- Develops the Consultation Interface (video UI mock, chat, timer, notes)
- Implements the Clinical Decision Support System (suggestions, alerts, recommendations)
- Builds the Prescription Module (medicine selection, dosage, PDF generation)
- Designs the Emergency & Priority Queue System (urgent handling, escalation)
- Develops the Admin Dashboard & Analytics (user management, reports, statistics)

4. Frameworks / Platforms / Software Used

- Frontend: HTML5, CSS3, JavaScript (ES6+), React.js
- Styling: Bootstrap / Tailwind CSS
- Backend: Node.js, Express.js
- Database: MySQL (optional)
- API Handling: REST APIs, Axios
- Routing: React Router
- State Management: Context API / Redux
- Testing Tool: Postman
- Version Control: Git & GitHub
- Storage: LocalStorage (for session/mock data)

Guide Name and Signature (remarks if any) _____ Dr. Y. Ashok _____
